4th MARINES

This is a list of Members of the 4th Marines recovered at the end of WW II that I have no information on after their return to the United States.

Commencing with Elmer Long's death I have attempted to keep the roster of the marine POWs up to date. I have and will continue to use the internet for searches and have located a number of those who were are listed as "recovered" If anyone has information about any of these men, please contact :
